Rimon Australia Pty Ltd trading as A Plus Chemical & Fragrances A.C.N. 079 942 537

SAFETY DATA SHEET

Product Name: Sea Breeze

1. Identification of the Material and Supplier:

Product Name: Sea Breeze
Product: Washroom hand cleaner, use as supplied, preferably via a hand pump or dispenser
Supplier Name: A Plus Chemicals and Fragrances
Address: Unit 3, 237 Collier Road, Bayswater WA 6053 AUSTRALIA
Telephone: 08 9370 4829
Fax: 08 9375 3350
Emergency: Israel Sasson 0410 302 200 (a/h)

2. Hazards Identification:

Based on available information, this material is not classified as hazardous according to criteria of Safe Work Australia.

Poison Schedule: Not applicable

DANGEROUS GOODS CLASSIFICATION

Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road and Rail".

3. Composition/Information on Ingredients:

Chemical Entity	Cas. No.	Proportion
Water	7732-18-5	➤ 60%
Sodium lauryl ether sulphate	9004-82-4	10 – 30%
Ethylene glycol mono stearate	11-60-4	< 10%
Fragrance	Proprietary	< 10%

4. First Aid Measures

If poisoning occurs, contact a doctor or Poison Information Centre (phone Australia 131 123)

Inhalation: Not usually applicable.

Skin Contact: Not usually applicable.

Eye Contact: If in eyes, hold eyelids apart and flush the eyes continuously with running water. In all cases of eye contamination, it is a sensible precaution to seek medical advice.

Ingestion: Rinse mouth with water. If swallowed do NOT induce vomiting. Give a glass of water to drink. Never give anything by mouth to an unconscious patient. If vomiting occurs, give further water. Seek medical advice.

Advice to Doctor: Treat symptomatically

5. Fire Fighting Measures:

Hazchem Code: Not applicable

Suitable extinguishing media: If material is involved in a fire use water to fog (or if unavailable fine water spray), standard foam, dry agent (carbon dioxide, dry chemical powder).

Specific hazards: Non-combustible material.

Fire fighting further advice: Not combustible under normal conditions, and does not pose as an explosion hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Evacuate the area and move up wind of fire.

6. Accidental Release Measures:

SMALL SPILLS

Wear protective equipment to prevent skin and eye contamination. Avoid inhalation of vapours or dust. Wipe up with absorbent (clean rag or paper towel). Collect and seal in properly labelled containers or drums for disposal.

LARGE SPILLS

Clear area of all unprotected personnel. Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination. Work up wind for increase ventilation. Cover with damp absorbent (inert material, sand or soil). Sweep or vacuum up but avoid generating dust. Collect and seal in properly labelled containers or drums for disposal. If contamination of crops, sewers or waterways has occurred, advise local emergency services.

Dangerous Goods – Initial Emergency Response Guide No: Not applicable.

7. Handling and Storage:

Handling: Avoid eye contact and repeated or prolonged skin contact.

Storage: Store in a cool, dry well-ventilated area and out of direct sunlight. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Store away from sources of heat and /or ignition. Store locked up. Keep container standing upright. Keep closed when not in use – check regularly for leaks.

8. Exposure Controls/Personal Protection:

National occupational exposure: No value assigned for this specific material by Safe Work Australia.

Biological Limit Values: As per the “National Model Regulations for the Control of Workplace Hazardous Substances (Safe Work Australia)” the ingredients in this material do not have a Biological Limit Allocated.

National occupational exposure limits: Natural ventilation should be adequate under normal use conditions.

Personal Protection Equipment: This product is a low hazard hand wash product, the use of safety glasses and gloves are not usually required.

8. Exposure Controls/Personal Protection: (continued)

Hygiene measures: Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Avoid contact with clothing. Avoid eye contact and repeated or prolonged skin contact. Ensure that eyewash stations and safety showers are close to the workstations.

9. Physical and Chemical Properties:

Physical State:	Pale green viscous liquid
Odour:	Fragrant
Solubility:	Soluble in water
Specific Gravity(20°C):	1.00 -1.10
Vapour Pressure (20°C):	Not Applicable
Flash Point:	Not Applicable
Melting Point (°C):	N/A
Boiling Point (°C):	100°C
pH:	6.0 – 7.0

10. Stability and Reactivity:

Chemical Stability: This material is thermally stable when stored and used as directed.

Conditions to avoid: Elevated temperatures and sources of ignition

Incompatible materials: Oxidising agents.

11. Toxicological Information:

No Adverse health effects are expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

11. Toxicological Information: (continued)

Acute Effects:

Inhalation: Not normally a hazard due to non-volatile nature of this product.

Skin contact: Not applicable

Ingestion: Swallowing can result in nausea, vomiting and irritation of the gastro intestinal tract.

Eye contact: May be an eye irritant.

Acute toxicity

Inhalation: This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients) >5mg/L

Skin contact: This material has been classified as non-hazardous. Acute toxicity estimate (based on Ingredients): >2000 mg/Kg

Ingestion: This material has been classified as non-hazardous. Acute toxicity estimate (based on Ingredients): >2000 mg/Kg

Corrosion/Irritancy: Eye: this material has been classified as not corrosive or irritating to eyes. Skin: This material has been classified as not corrosive or irritating to skin.

Sensitisation: Inhalation: This material has been classified as not a respiratory sensitiser. Skin: This material has been classified as not a skin sensitiser.

Aspiration hazard: This material has been classified as non-hazardous.

Specific target organ toxicity (single exposure): This material has been classified as non-hazardous.

Chronic Toxicity

Mutagenicity: This material has been classified as non-hazardous

Carcinogenicity: This material has been classified as non-hazardous

Reproductive toxicity (including via lactation): This material has been classified as non-hazardous.

Specific target organ toxicity (repeat exposure): This material has been classified as non-hazardous.

12. Ecological Information:

Avoid contaminating water ways.

Acute aquatic hazard: This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): > 100mg/L

Long-term aquatic hazard: This material has been classified as non-hazardous. Non-rapidly degradable substance for which there are adequate chronic toxicity data available OR in the absence of chronic toxicity data, Acute toxicity estimate (based on ingredients): > 100mg/L, where the substance is not rapidly degradable and/or BFC < 500 AND/OR LOG K_{ow} < 4.

Ecotoxicity: No information available

Persistence and degradability: No information available

Bioaccumulative potential: No information available

Mobility: No information available

13. Disposal Considerations:

Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see “Section 8. Exposure Controls and Personal Protection” of this SDS

If possible, material and its container should be recycled. If material or container cannot be recycled, dispose of in accordance with local, regional, national and international Regulations.

14. Transport Information:

ROAD AND RAIL TRANSPORT

Not classified as Dangerous Goods by the criteria of the “Australian Code for the Transport of Dangerous Goods by Rail and Road”

14. Transport Information: (continued)

MARINE TRANSPORT

Not classified as Dangerous Goods by the criteria of the International Maritime of Dangerous Goods Code (IMDG) for transport by sea.

AIR TRANSPORT

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

15. Regulatory Information:

This material/constituent(s) is covered by the following requirements: All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).

16 Other Information:

Reason for issue: Format change

NOTE: The information contained in this bulletin is offered on data that we believe to be reliable and has been prepared in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control.

KEEP ALL CHEMICALS AWAY FROM CHILDREN
